

LUXOR
design Roberto Lazzeroni

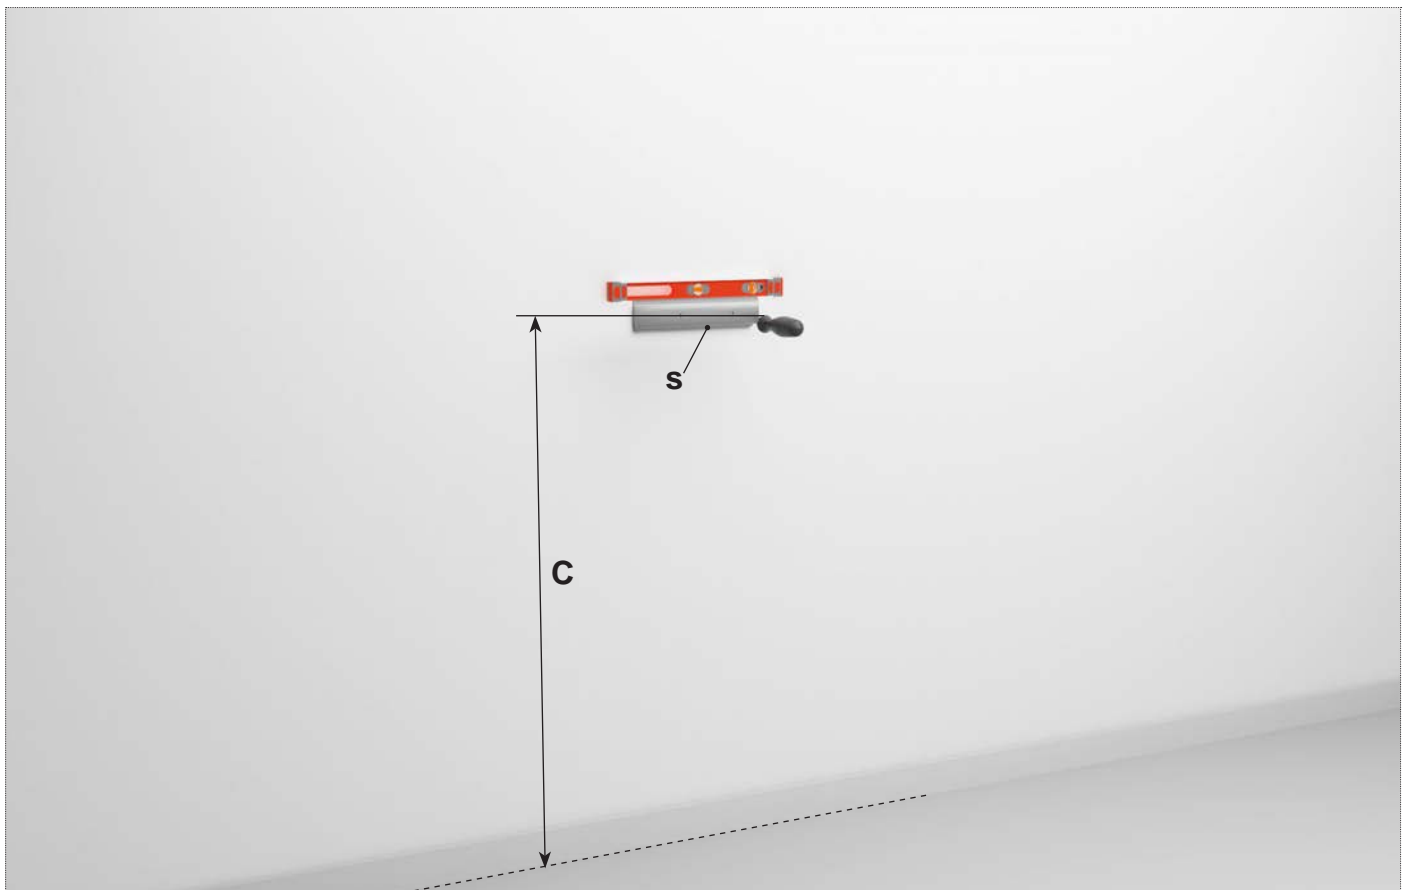

antoniolupi

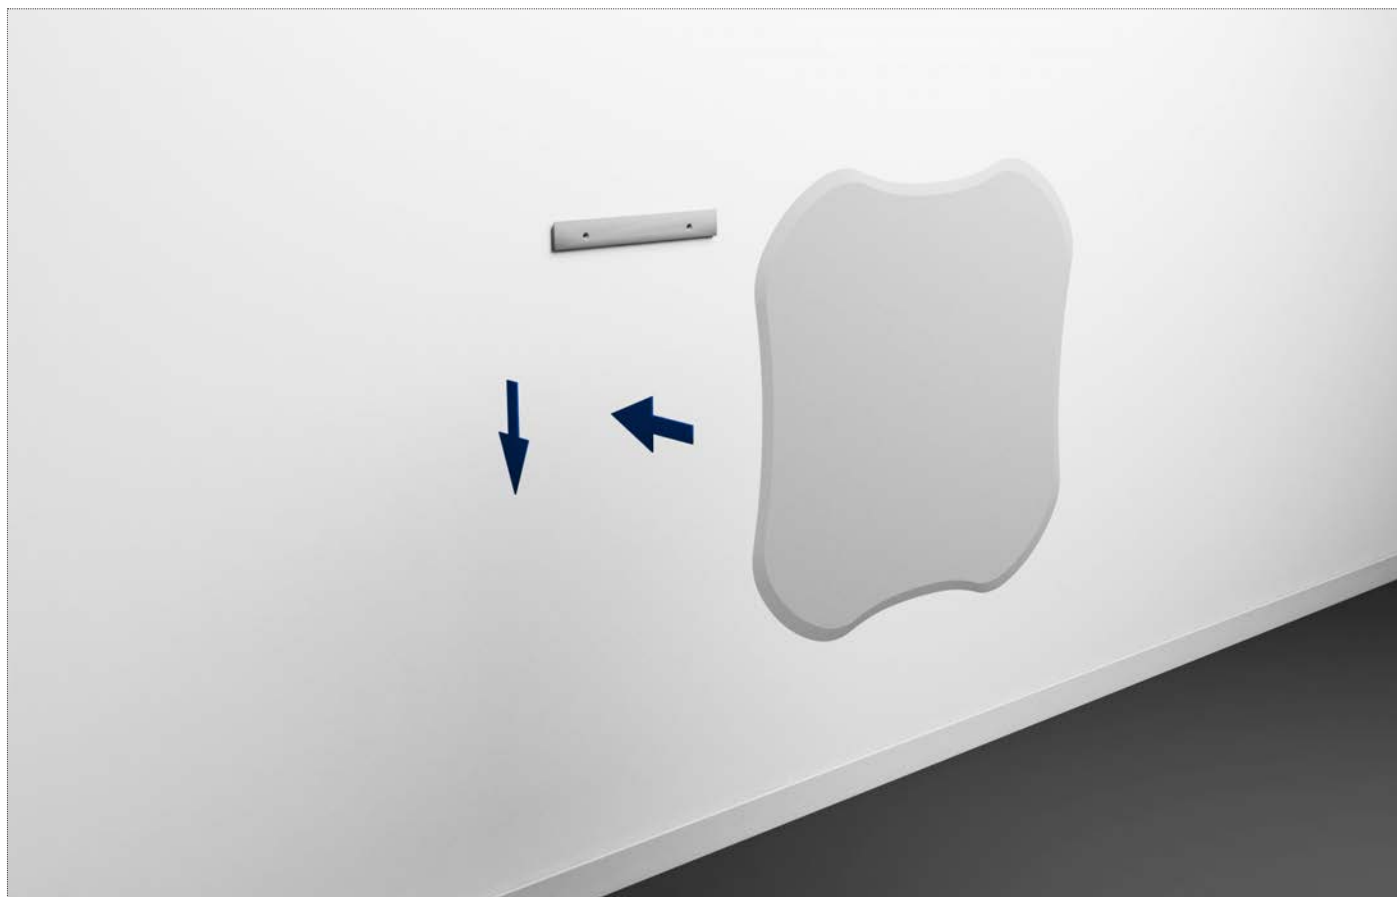

MADE IN ITALY

1_To fix the mirror at the desired height A, insert the support s in the groove b on the back side. Measure the distance H between the top border and the distance between the holes of the supports s.

2_Fix the supports s on the wall with the distance of the holes at height c ($C = A - H$)

3_Fix the mirror to the support as shown in the image.
